SKILLS

- AI & Voice: ElevenLabs Conversational AI, Canary Speech, Multi-agent Orchestration, LLM Integration:
- AI-Assisted Development: Claude, ChatGPT, Cursor, Manus AI — daily use for code generation, debugging, architecture planning, and delivery acceleration:
- Mobile: React Native, iOS Development, Android Development, Native Modules:
- Languages: TypeScript, JavaScript:
- State Management: Redux, Context API, Zustand:
- UI & UX: Animations, Haptic Feedback, Figma collaboration:
- Backend & APIs: RESTful APIs, Axios, Fetch, Firebase, AWS Amplify:
- Payments & Auth: Apple In-App Purchases, Swish, Nets, Bank ID:
- Specialisms: NFC, IoT, Offline Downloads, Push Notifications, App Store & Play Store deployment:
- Forms & Validation: Formik:
- Tools & Process: Git, Jira, Agile / Scrum, Project Management:
- Ethical and Legal Compliances:

Swair Arshad

Senior React Native Developer

PROFESSIONAL SUMMARY

Innovative Senior React Native Developer with 6+ years building production-grade cross-platform apps across healthcare, AI wellness, and enterprise domains. Specialises in integrating AI capabilities into mobile — including real-time conversational AI, LLM-powered, and vocal biomarker analysis — alongside deep expertise in payments, NFC, IoT, and cloud services. Proven track record leading agile teams with a 95% on-time delivery rate and 30% improvement in app performance, and leverages AI tooling daily to accelerate development velocity and code quality.

KEY PROJECTS

NOVA LiFE — AI Sobriety Companion

Jan 2026 — Present

- React Native · ElevenLabs Conversational AI · Canary Speech · Zustand
- Built an AI-powered mental wellness app delivering real-time therapeutic voice conversations through a custom ElevenLabs Conversational AI integration, with seamless switching between voice and text modalities.
- Engineered a full system managing session lifecycle from connect through multi-agent workflow transfers to graceful teardown.
- Embedded Canary Speech SDK for real-time vocal biomarker analysis (mood, stress, energy), surfacing acoustic health signals to the AI as live contextual updates mid-conversation.
- Built mobile-side orchestration for ElevenLabs multi-agent workflows including silent agent transfers, dynamic variable injection, and partial state recovery on mid-session exit.

The Breath Source

Jun 2025 — Dec 2025

- React Native · Firebase · AWS Amplify
- Built a subscription based wellness app with curated breathwork sessions, offline downloads, live class streaming, personalised flows, and an integrated bio-hacking shop with in-app purchases. Live on App Store & Play Store.

DQCA — Quranic Script Certification

Jul 2024 — Present

- Developed a mobile platform to authenticate and certify Quranic scripts through verified huffaz, automating a previously manual certification process with robust online/offline support.

0-100

Aug 2023 — Jun 2024

- React Native · Firebase · Redux · Formik · Animatable
- Fast-paced quiz game. Integrated Apple In-App Purchases and optimised UI animations. Live on App Store.
- Led end-to-end development and optimization of Consumer trivia game features, driving a 30% increase in user engagement through data-driven design and iterative testing.

- React Native · Swish · Nets · Bank ID · NFC · IoT · Scrum
- Range of production apps: on-demand massage booking with Swish/Bank ID payments, enterprise employee feedback platform, clinical eating disorder diary, NFC tag communication tool, and an international conference app — all shipped to App Store and/or Play Store.

EDUCATION

Nov 2022 - Feb 2023

PGD in Project Management, London College of Professional Studies (LCPS)

Sep 2015 - Jun 2019

BSc in Computer Science, PMAS Barani Institute of Information Technology | Rawalpindi, Pakistan

LANGUAGES

Urdu

Native / Bilingual

English Full Professional Proficiency

French

Elementary

ACHIEVEMENTS & COMMUNITY

Toastmasters International — Club President (3 Terms)

Served three consecutive terms as President of Rebel Speakers, leading members in public speaking, leadership development, and communication skills. Also served as Master of Ceremonies at a Toastmasters District event.

University Guest Speaker — Tech & Career Inspiration

Invited by a university to deliver a session for new joiners on technology careers, inspiring students entering the software industry.

Government Coding Bootcamp — Lead Instructor

Designed and taught a 10-day intensive programming course for summer students at a government school through DPL, helping young learners discover their interest in coding and software development.

EmpowerHer — Women in Tech Speaker

Delivered and led sessions on leadership and technology as part of the EmpowerHer initiative, advocating for greater representation of women in the tech industry.

Technical Blogger

Active author on Medium and Dev.to, writing about
